Next to Normal Company

Director’s Note

I believe that music can be healing. Nothing else creates the kind of community that comes from live performance, both in creating it and viewing it. In light of the events that occurred on Brown’s campus on December 13th, gun violence awareness and prevention has been at the forefront of people’s minds. Through this show, we have been able to do something meaningful, both by partnering with the Rhode Island Coalition Against Gun Violence and by uniting through music. We chose these songs because of their themes of hope, joy, and dreaming of a better world. Now more than ever do we need to support and uplift each other and what better way to do so than through an art form we all love. I am immensely proud of everyone who worked on in harmony and wish to thank them for creating such a inspiring and welcoming community at a time when we need it most. I hope this show will bring you as much joy as it brought me.

With love,
Helen Hen
